Principal

I feel great pleasure to introduce Kempegowda Institute of Nursing as renowned nursing institution which was established in 1990 to provide quality education and excellence in dynamic field of nursing education.

Technology is moving at a very fast pace. What was breakthrough yesterday is obsolete today. This has made it imperative that future nurses must be familiar not only with technical skills but also involve in nursing research which is need of the hour. The theory "Survival of fittest" is more relevant now than ever before. We believe in value based quality nursing education and faculty members of KIN are striving hard for it, hence product of KIN is well received by the Health Care Industry, I hope young nurses passing from the institute will create difference in Indian and Global scenario.

I expect my faculty and students to be sincere, responsible and committed to their work. They should have "never give up attitude and unquenchable thirst of knowledge". I wish Best of Luck to all the students in their endeavors.
